

SIMPLE IRAs

are tax-advantaged retirement plans that enable both you and your employer to contribute toward your retirement goals.

Key Benefits

- Provides you with a valuable, tax-deferred employee benefit for your retirement
- Enables you to receive yearly contributions from your employer
- Allows you the flexibility to contribute toward your own retirement goals through a tax advantaged account
- Features immediate vesting (ownership of the account)
- Enables you, working with an advisor, to choose and manage your own investments

A Savings Incentive Match Plan for Employees—or SIMPLE IRA—allows you to make contributions that are federally tax-deductible. Your earnings and tax-deductible contributions are not taxed until withdrawn, providing the benefit of tax-deferred growth and the immediate reduction of taxable income.

How SIMPLE IRAs work

- > Your employer makes annual contributions¹
- > You can make contributions with an annual limit
- > You are immediately vested, which means you fully own your account

Your
SIMPLE
IRA

An advisor:

- > Can help choose investments such as stocks, bonds, mutual funds and managed accounts
- > Can help you determine an asset allocation strategy
- > Will change investments and allocation at your direction

As a tax-advantaged retirement plan, your employer must offer a SIMPLE IRA to all eligible employees.

Contributions

- > SIMPLE IRAs require a yearly minimum contribution from your employer.
- > Your employer may match employee contributions or may contribute a flat percentage of compensation for each employee who earned at least \$5,000 in compensation for the year, regardless of the amount the employee contributes.
- > If your employer elects to match your contribution, you determine the percentage of your compensation that will be deposited pre-tax to your SIMPLE IRA.
- > Contribution limits for 2016 and 2017 are: participants under age 50 \$12,500; participants 50 or older \$15,500 (includes catch-up contributions).
- > You are not required to make contributions to your SIMPLE IRA.
- > Additional rules may apply if you participate in another qualified plan.

Distributions

- > Withdrawals are permitted without penalty at age 59½ or in the event of death or disability.
- > Early withdrawals are generally subject to a 10% federal tax penalty if taken before age 59½.
- > State tax implications may also apply.
- > Loans are not available from your SIMPLE IRA.
- > A rollover from a SIMPLE IRA to another SIMPLE IRA can happen any time.
- > Rollovers between a SIMPLE IRA and any qualified retirement plan are permissible as long as the SIMPLE IRA has existed for at least two years.
- > Unlimited trustee-to-trustee transfers are permitted between similar IRA types.
- > Minimum required distributions must begin by April 1 of the year following the year you reach 70½.

How An Advisor Can Help

Create a retirement strategy

An advisor can help you map out a holistic retirement planning strategy, taking into consideration your retirement goals, timeframe and risk tolerance.

Choose investment options

SIMPLE IRAs offer a wide variety of investment options including individual stocks and bonds, mutual funds, managed accounts or other investment instruments.

Determine your asset allocation

The first step after a contribution is made to your SIMPLE IRA is to determine how to allocate your assets among available investment options.

Review and track performance

You will receive consolidated account statements for your SIMPLE IRA, making it easier for you and your advisor to track, evaluate and review the performance of your investments and make any course corrections necessary.

The rules governing contribution limits are complex, and you should consult with your plan administrator to understand the limitations, rules and regulations that apply to your plan.

Talk to your advisor to find out more

The advisor working with your employer can help you review your specific situation and retirement goals and answer questions about features and benefits as well as any risks associated with your SIMPLE IRA. Carefully review the plan, its investment options and costs before investing.

¹ Only the first \$265,000 in 2015 and 2016 of an employee's compensation can be considered when calculating contribution maximums.

Note: Investing involves risks, including the possible loss of principal. Investments are not FDIC insured and not insured by any federal government agency and may lose value. Different investments carry different types and degrees of risk and may not be suitable for all investors. You should familiarize yourself with those risks before investing.
